

The Central Issue in the Invisible War is Thought; Loss of Thought Leads to Demon Influence; Tenured Faculty of the Satanic Academy of Cosmic Didactics

12. The entire issue in this combat is thought and that which originates the thought is the hierarchy of authority that commands each side in the dispute.
13. The hierarchy for the Light is the Trinity: God the Father, God the Son, and God the Holy Spirit. They communicate to us through the Bible, the only source for divine viewpoint and absolute truth.
14. The Bible describes each Member's involvement in its construction: "the Word of God" (Hebrews 4:12), the "mind of Christ" (1 Corinthians 2:16), and the "voice of the Holy Spirit" (Hebrews 3:7).
15. The hierarchy for the Dark Side is commanded by Lucifer and the officer corps of his demonic army. They and their rank and file are the invisible warriors we engage in the Invisible War.
16. One's ability to discern historical trends, to evaluate the thinking of the Progressives, and to analyze current events comes from a clear understanding of what influences them.
17. The people who are involved are minions, tools, and emissaries for the Dark Side. They are unwitting in their participation because they have been so propagandized by the lie that they believe its ideas, conclusions, and standards are derived from their own brilliance.
18. The New Sheriff is a classic example of an automaton graduate of the Satanic Academy of Cosmic Didactics. Highly intelligent from human standards, his orientation to the lie has been so complete that his arrogance is at its ascendancy.
19. He is not the Lone Ranger. He is surrounded by a cadre of profligate scoundrels, grifters, and popinjays that are draining the national treasury down to its very last dime.
20. This drift of hogs are graduates summa cum laude from the tenured faculty of the Satanic Academy: Antonio Gramsci, who spawned the "long march thorough the institutions," Georg Lukács \luk'-ach\, Max Horkheimer, and William Benjamin of the Frankfurt School, Theodore Adorno and Herbert Marcuse \mär-kü'-za\ of the Columbia School of Education; A. S. Neill of the Summerhill School, John Dewey, the father of progressive education, John Maynard Keynes, who developed the economic theory of government intervention into the free market during a recession by means of lowering interest rates, raising taxes, and financing infrastructure, and last, but not least, Saul Alinsky, the ultra radical whose book, *Rules for Radicals*, has instructed so many of those that a blithe electorate elevated to power this past November.

21. All these enemies of the State are “blood and flesh.” They would not be threats to our individual freedoms if they had not been propagandized and brainwashed by the curricula communicated by the demonically inspired faculty of the Cosmic Academy.
22. The same duplicity and deceit that captured the souls of these men confronts your souls on a daily basis.
23. The value of propaganda is a constant in warfare. For example, Joseph Goebbels, the Nazi party propaganda director in 1928. From 1933 to 1945, he was the master of modern propaganda techniques in retaining support of German people.
24. The techniques used by Goebbels were designed to maintain German nationalism. The new propaganda is designed to destroy American nationalism and the major sources for this comic assault are mainline media now orchestrating a “quick march” into socialism.
25. All of these strategies and tactics are presumptively from “blood and flesh,” but they are only the conduits. The source of their philosophies, ideologies, and worldview are Lucifer and his demonic officer corps.
26. Therefore, to emphasize the true source of cosmic didactics, Paul provides the identities of those in the demonic table of organization.
