

Phi: The Golden Number: 1.618...

The human body is based on Phi and illustrates the Golden Section or Divine Proportion.

A is 1.618 times B
B is 1.618 times C

The Divine Proportion in the Body:

The white line is the body's height.

The blue line, a golden section of the white line, defines the distance from the head to the finger tips

The yellow line, a golden section of the blue line, defines the distance from the head to the navel and the elbows.

The green line, a golden section of the yellow line, defines the distance from the head to the pectorals and inside top of the arms, the width of the shoulders, the length of the forearm and the shin bone.

The magenta line, a golden section of the green line, defines the distance from the head to the base of the skull and the width of the abdomen. The sectioned portions of the magenta line determine the position of the nose and the hairline.
